

By achieving the following goals and completing the outlined scope, St. Ansgar aims to strengthen its educational offerings, support student achievement in diverse fields, and promote holistic development through enhanced physical fitness and wellness opportunities.

**ST. ANSGAR**  
COMMUNITY SCHOOL DISTRICT

**GOALS:**

1. **Secure \$1,000,000 in Funding:** Raise funds through community donations, grants, and fundraising activities to cover construction costs, equipment purchases, and ongoing maintenance of both facilities.
2. **Complete Construction and Launch:** Complete the construction and outfitting of the Industrial Tech & Ag Shop and the new weight room facility within a specified timeline, ensuring they are fully operational and accessible to students and faculty.
3. **Enhance Educational and Athletic Opportunities:** Expand educational opportunities by integrating hands-on learning experiences in agricultural sciences and industrial technology. Simultaneously, support athletic development and overall student well-being through improved fitness facilities.
4. **Promote Sustainability and Safety:** Incorporate sustainable practices in facility design and operation, ensuring energy efficiency and environmental responsibility. Additionally, prioritize safety measures to create a secure learning and training environment for students and staff.

Industrial Tech/Agriculture Education Building  
and Weight Room Facility

# FUNDRAISING CAMPAIGN

*Creating Better Opportunities for Students  
and Building our Communities' Future*

**LEVELS OF GIVING**

ELITE LEVEL

- ▶ Over \$100,000.00
  - Naming rights to a portion of the building

CORNERSTONE LEVEL

- ▶ \$50,000.00 - \$100,000.00
  - Cornerstone of building Recognition
  - Recognition on wall of donors

RED LEVEL

- ▶ 10,000.00 - \$50,000.00
  - Weight Rack Recognition
  - Recognition on wall of donors

WHITE LEVEL

- ▶ \$1,000 - 10,000
  - Recognition on wall of donors

## PROJECT SCOPE:

The project involves establishing a state-of-the-art Industrial Tech & Ag Shop and building a new weight room facility at St. Ansgar. These facilities will be designed to enhance students' educational and physical development opportunities, integrate modern equipment, and foster hands-on learning experiences.

### Industrial Tech & Ag Shop:

#### 1. Construction and Equipment:

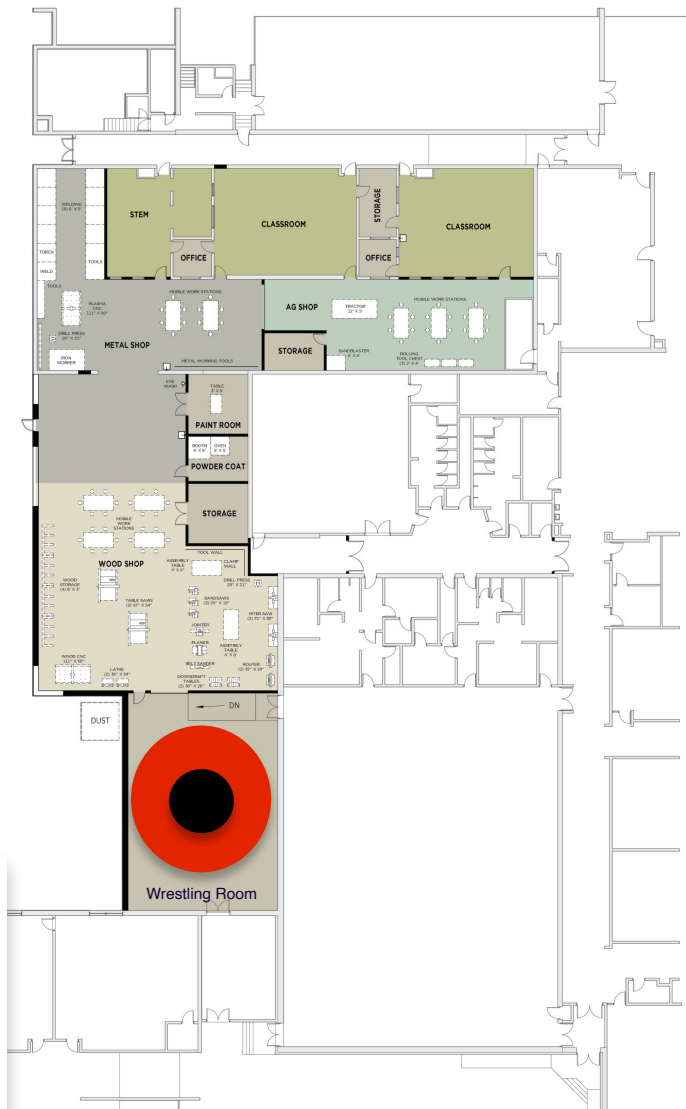

Expand and reconfigure existing space to create a comprehensive Industrial Tech & Ag Shop equipped with tools, machinery, and workstations tailored to agricultural sciences and industrial technology disciplines.

#### 2. Curriculum Integration:

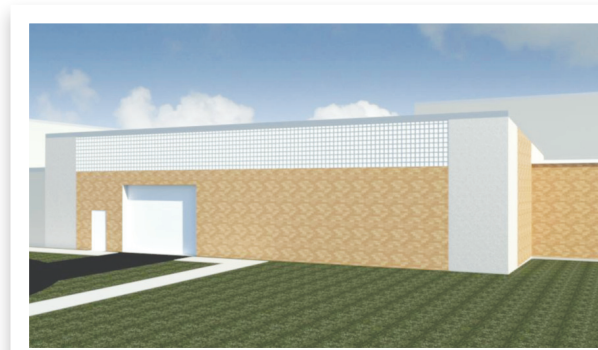

Integrate the facility into the school's curriculum to offer courses in woodworking, metalworking, agricultural mechanics, and sustainable agriculture practices.

#### 3. Hands-on Learning:

Provide students with practical, real-world experiences that promote problem-solving skills, creativity, and technical proficiency in agricultural and industrial fields.

SCHEMATIC FLOOR PLAN

WEST FACADE

### New Weight Room Facility:

#### 1. Design and Construction:

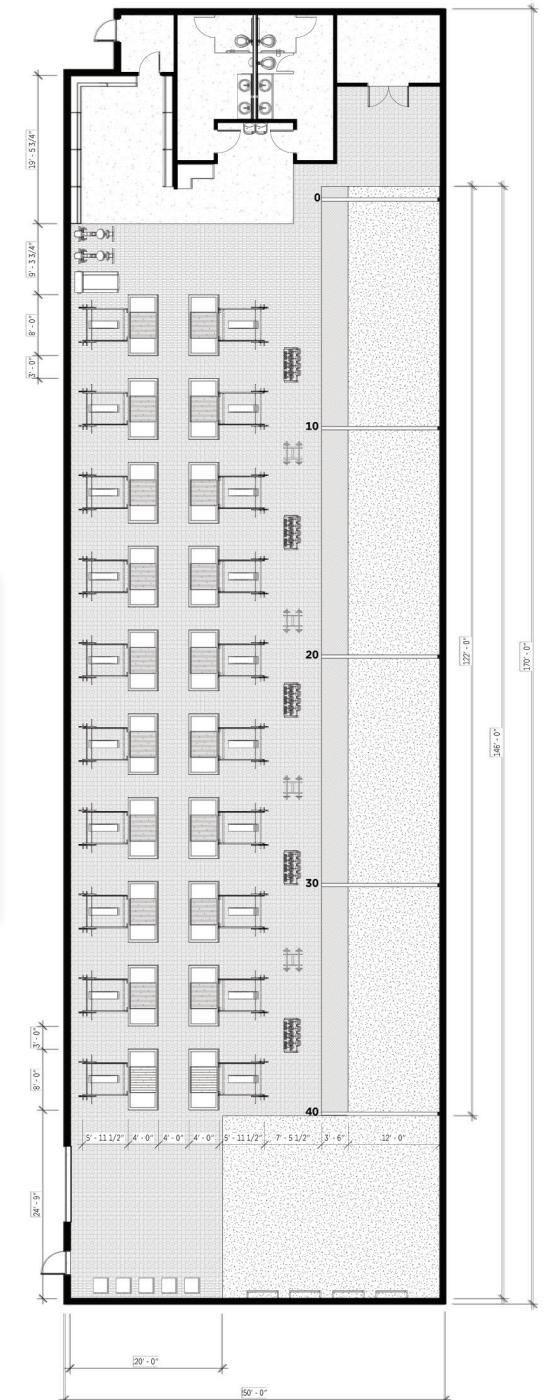

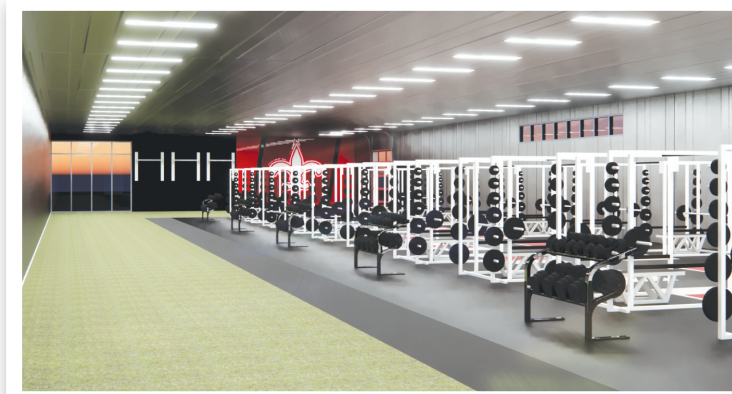

Design and construct a new, modern, stand-alone weight room facility that supports all athletic programs and promotes physical fitness among students.

#### 2. Equipment and Space:

Equip the weight room with a range of exercise machines, free weights, and conditioning equipment to cater to diverse fitness needs and athletic training programs.

#### 3. Health and Wellness:

Foster a culture of health and wellness by providing a dedicated space for strength training, cardiovascular exercises, and overall fitness improvement.
